

Donorly

Brand guidelines — fundraising software built for community organizations, live events, and dignified donor relationships.

I. Brand story

Donorly helps mosques, masjids, and community nonprofits run fundraising with clarity and trust — from pledge cards and follow-ups to live event tally screens and inventory accountability.

Our brand should feel **grounded, dignified, and capable**: not flashy fintech, not cold enterprise software. We serve volunteers at a Friday fundraiser, finance teams issuing receipts, and donors scanning a QR from their pew.

Brand personality

We are	We are not
Trustworthy & calm	Hype-driven or aggressive
Event-ready & practical	Over-designed or decorative
Warm & community-centered	Corporate or impersonal
Clear & action-oriented	Jargon-heavy or vague

Tagline (optional use)

Fundraising, organized.

Use on marketing materials, login screens, and store listings — not required in the product UI.

2. Logo

The Donorly mark pairs a **giving arc** symbol with a bold serif wordmark. The arc suggests growth, community uplift, and live campaign progress; the gold dot marks achievement and “money-in” moments.

Primary — horizontal lockup (PNG)

Primary — vector (SVG)

Reversed — dark backgrounds

App icon / favicon source

Clear space

Maintain clear space equal to the height of the gold dot around the full lockup. Do not place text, borders, or other marks inside this zone.

Minimum size

- **Digital:** wordmark legible at 120px width; symbol alone at 24px.
- **Print:** full lockup no smaller than 25mm wide.

Do

Use approved SVG/PNG files.
Use reversed logo on emerald or dark photos.
Keep gold accent visible on the symbol.

Don't

Stretch, rotate, or add drop shadows.
Change logo colors outside this guide.
Replace the wordmark with a different font.

3. Color

Emerald is trust, structure, and navigation. **Gold** is reserved for collected amounts, goals reached, and positive confirmation — never as a primary UI chrome color. **Cream** is the warm canvas that keeps the product approachable.

Primary palette

 Emerald #0a4f3f · Primary brand, buttons, headings	 Emerald Dark #083a2e · Sidebar, projector screens	 Emerald Light #0d6650 · Hover states
 Gold #a87f2f · Collected, achievements	 Gold Dark #7c5c1f · Gold text on light bg	 Cream #faf6ec · App background

Tint ladder (UI)

 Emerald 50 #eef4f1 · Row hover, soft fills	 Emerald 100 #dcebe4 · Notices, selected rows	 Gold 50 #faf3e2 · Pledge saved, success banners
---	--	--

Gold rule: Use gold for money-in and milestone moments (total collected, goal reached, pledge confirmed). Do not use gold for navigation, body text, or generic buttons.

Accessibility

Body text on cream: **#1c2b26**. White text on org-custom sidebar colors must meet WCAG AA — the product darkens brand colors automatically when contrast is insufficient.

4. Typography

Campaign progress

Cormorant Garamond (600–700) — Display & wordmark. Headlines, campaign names, login hero.

Manrope (400–700) — UI & body. Forms, tables, buttons, navigation labels.

Record the pledge · Mark collected · Scan to pledge

Type scale (web)

Role	Font	Size
Page title	Cormorant Garamond Bold	24–36px
Section heading	Cormorant Garamond Bold	20–24px
Body	Manrope Regular	14–16px
Label / table	Manrope Medium	12–14px
Live tally (projector)	Cormorant Garamond Bold	48–96px

5. Voice & tone

- **Plain language:** “Pledge saved” not “Transaction submitted.”
- **Respectful:** Acknowledge donors and volunteers by name when possible.
- **Calm under pressure:** Event-night copy stays short and confident.
- **Honest about limits:** “Online payment coming soon” rather than broken buttons.

Co-branding (multi-tenant)

Each organization may set a **primary color** and logo. Donorly emerald remains the platform default; org branding applies to sidebar and accents. Never replace the Donorly wordmark with an org name in the platform chrome — show org name beside or below Donorly.

Photography & imagery

- Real community events, volunteers, and gatherings.
- Warm, natural light; avoid sterile stock office imagery.
- Diverse representation aligned with the org’s community.

Digital touchpoints

Surface	Guidance
Web portal	Cream background, emerald sidebar, gold for collected stats
Live tally / projector	Emerald dark full-bleed, large serif numbers, gold at 100% goal
Public self-pledge	Mobile-first, cream + emerald, minimal fields
App icon / PWA	Symbol on cream; 512×512 master from <code>donorly-icon.png</code>
Email receipts	Org-branded sender when configured; Donorly footer optional

Asset pack: `donorly-portal/branding/logos/` — SVG (preferred for web/print), PNG lockups, app icon.
